What is education?

What is life?

Where am I headed?

What's important?

Life is spent trying to solve these and other questions.

How happy and satisfied you will feel in your golden years will depend upon how well you have answered these questions for yourself. You will find that there is not another person who would have been happy living your life because he does not seek the same things out of life.

High School is a time to assess your own true feelings. Most students in our school should be very happy with their experiences this year. Truly it has been a remarkable year with excellent athletic records, good drama productions, a good student body, many extracurricular activities, excellent instructors and curriculum, etc. I am proud of our school and our students. I only wish that every student would have profited to the fullest extent. It's here, let's try to make maximum use of it!

Illini Bluffs is in its second year of participating in a foreign exchange student program. This year four students from foreign countries are with us. They are Tuula Alhola from Finland, Ernie Franklin from Brazil, Rudy Natividad from the Philippines, and Paul Grimm from Denmark. All four are part of the "Youth for Understanding" program which has its regional office in Pekin. The expense for their involvement is mostly financed by their families. While they are here in America, they reside with families in our area.
